Experience in AR

27" office 4K monitor

The EV2740X makes a clear statement for performance. 4K UHD resolution, USB-C docking and 94 W Power Delivery are convincing. Its 163 dpi display quality ensures crisp graphics and text. Docking convenience via its USB-C interface makes the FlexScan EV2740X the ideal display solution for professional office or CAD applications. Switching smoothly between office and home office is a breeze thanks to the USB-C port. Especially notebook and tablet users benefit from this. A single connection to the computer is sufficient for charging power, video signal, audio and USB data including network. The casing is available in black or white; even the cables are color-coordinated. The monitor is equipped with two HDMI ports as well as one DisplayPort and USB-C port each. With its two USB upstream ports, the EV2740X can be used as a keyboard/mouse switcher. For example, if both a home PC and a company computer are connected to the monitor in the home office, both computers can be operated with a single keyboard and mouse. When using its Picture-by-Picture function, it even displays two signal sources simultaneously.

- 27" 4K monitor with large-screen display and fine 163 ppi resolution
- Docking function thanks to USB-C port with Display-Port signal channel, LAN and power supply up to 94 watts
- Choice of black or white housing color
- Extremely slim case frame: super-compact and ultrachic design
- Contrast 2000:1, brightness 350 cd/m2, 178° viewing angle

- Auto EcoView and EcoView Optimizer for maximum energy savings and optimal ergonomics
- Signal inputs: USB-C (DisplayPort Alt Mode), Display-Port, 2 x HDMI
- Picture-by-Picture for 2 signal sources and KVM switch function
- Demonstrably produced in an environmentally and socially responsible manner
- 5-year warranty for highest investment security
